

# STATE RELIEF MONEY IMPOSSIBLE BEFORE MAY 1

## CHARGES DEM. COMMITTEE IN CONTROL JOBS

### President's New Relief Set-up Attack-ed and Praised

Washington, April 25.—(AP)—Resuming his "fireside chats," President Roosevelt Sunday night will explain over the radio the four billion dollar work relief undertaking and give another account of his stewardship.

Accompanying this word today were renewed reports that Harry L. Hopkins, the relief administrator, and Frank C. Walker, reappointed director of the National Emergency Council, probably would share with the President the most direct responsibility in the attempt to make 3,500,000 jobs.

An announcement will be made tonight of appointments to the all-important allotment board in the work relief drive, the agency to parcel out the money, which the President himself is expected to head.

**Praise, Criticism**  
The machinery which Roosevelt is setting up to spend the \$4,000,000,000 work relief fund drew praise and criticism from opposite sides of the political fence.

"It shows," said Speaker Byrns, "that he is going to carry out his promise to handle the money through existing agencies. He is keeping another promise by remaining personally responsible for expenditures."

Representative Taber of New York, ranking Republican member of the appropriations committee which handled the relief bill, fired this comment at the job-making setup:

"It is well under control—of the Democratic national committee!"

These clashing views were voiced as the capital waited for the President to appoint the powerful allotment board which will pass finally upon proposed projects.

**Hopkins Is Forefront**

There was much speculation as to the part which Harry L. Hopkins, the relief administrator, will play in the works drive. In informed circles it was predicted he would have considerable to say about where and on what the work relief money shall be spent. Chairmanship of the allotment board was believed to be reserved for Roosevelt, however.

One official predicted that the completed organization for giving work to 3,500,000 now on relief would include these men and these assignments:

Hopkins, chief of FERA, to continue direct relief in communities unable to care for their destitute employables, and to take a hand generally in the transfer of 2,500,000 now on work relief to jobs in the new work program.

**Central Buying Agency**  
Rear Admiral C. J. Peoples, Treasury procurement officer, to supervise purchase of all work relief materials and set up a central agency to buy some of them.

Secretary Ickes, the PWA administrator, to have a hand in administering more than \$1,600,000,000 set aside for public works—including \$450,000,000 for low cost housing.

Frank C. Walker, already has taken office as director of the National Emergency Council to maintain a clearing house for information and application forms and to check proposals against employment needs.

Rexford G. Tugwell, Under Secretary of Agriculture, has been named to direct the re-settlement of stranded farm and city families in rural-industrial communities and on farms.

Tugwell was designated by the President yesterday to direct rural re-settlement projects. Roosevelt disclosed he would create new agencies to handle grade crossing elimination and rural electrification but did not immediately announce who would head them.

He named 43 existing governmental agencies to help carry out the work program and indicated that some of these would have to increase their staffs temporarily. Treasury officials said they would make a thousand extra men to staff the checks that will go to those benefiting from the huge program.

**PREPARED FOR CAMPAIGNS**

In the Soviet union archives of offices, there are 19,000 matrices of graphophone records, including speeches by many famous men.

## GIRL TO PLEAD FOR KIDNAPER'S LIFE TOMORROW

### Mary McElroy to Ask Governor to Commute Sentence

Kansas City, April 25.—(AP)—Mary McElroy, attractive brunette daughter of City Manager H. F. McElroy, said today that she would make a personal appeal tomorrow to Governor Guy B. Park for the commutation of the death sentence awaiting her kidnaper, Walter McGee.

She and her father will drive to Jefferson City tomorrow morning, she said, and will present her appeal to Governor Park.

Miss McElroy indicated that she should suggest that justice would be served and her own life made easier if McGee's death sentence—set for execution on May 10—were made life imprisonment.

The supreme court, Division No. 1, today denied a rehearing to McGee.

The court did not comment on its action in denying McGee's application for a rehearing.

Since Division No. 1, by its decision, held in effect that no points had been raised for transfer of the case to the court en banc, it was regarded as unlikely that there would be further legal proceedings in the court.

Miss McElroy was unharmed. Her father paid \$30,000 ransom for her release. She was held 29 hours in a basement of a rural home near Kansas City.

## FREAK TRAFFIC MISHAPS ON W. THIRD STREET

Third street between Galena and Peoria avenues witnessed two freak automobile accidents last evening between 4:15 and 5:30. The amount of damage was slight in both instances and no one was injured.

About 4:15 in the afternoon a Wisconsin driver whose car was parked between Galena and Hennepin avenues, started up his motor, shifted into reverse and then accidentally dropped his foot onto the accelerator. The car shot backward, over the curb and into the yard at the county jail, where it came to a stop against the flag pole. The driver had recovered his composure by this time and proceeded to drive the machine to the street, no particular damage having been done.

A 5:30 last evening, a car belonging to Mrs. Werner Marloth was parked east of Peoria avenue at the curb, south of St. Luke's Episcopal church. The brakes did not hold and the sedan slid down the hill, crossed Peoria avenue, West of Peoria avenue, the car suddenly swerved south and just as suddenly came to a stop without the apprehension of anyone.

## Charges Against Fred Tarrent Unfounded So He Returned to Job

Springfield, Ill., April 25.—(AP)—State highway officials announced the reinstatement today of Fred Tarrent, chief maintenance engineer, who was suspended three weeks ago pending an investigation of charges that he drafted contract specifications so as to give an unfair advantage to one company.

"Our investigation showed conclusively that the charge against Tarrent was without basis in fact," said Lyndon Smith, business manager for the division of highways.

## No Newspaper Large Enough, Even Without Ads or News, to Publish Propaganda Sent from Washington

New York, April 25.—(AP)—The American Newspaper Publishers' Association, told by one speaker that newspapers had saved the freedom of the press during code negotiations, heard another say a deluge of federal propaganda threatened to destroy its value.

John Stewart Bryan, publisher of the Richmond, Va., News-Leader and president of the College of William and Mary, said yesterday the government was using "the most powerful and insidious mechanism that has been developed in the history of man" to disseminate its propaganda.

Col. Robert R. McCormick, publisher of the Chicago Tribune, said that because the newspapers defended it at Washington "the freedom of the press was preserved for all people."

The Chicagoan declared the newspaper's greatest function was

## TEXAS JUDGE, WIFE KILLED BY THEIR SON

### Youth Admits Murder of Parents Yesterday for 'Reason'

Austin, Tex., April 25.—(AP)—Howard Pierson, 20, clean-cut and handsome, said today he killed his father and mother, Associate Justice William A. Pierson of the Texas supreme court, and Mrs. Pierson, for "a reason."

After Deputy Sheriffs Sam Rogers and Paul Blair announced he had confessed, Pierson told newspapermen he shot his parents to death late yesterday on a country road about 15 miles from Austin where he had lured them on the pretext of viewing a scenic drive.

First he shot his mother, he said, then his father, then he sent a bullet through the head of each "to make sure they were dead."

Next he shot himself in the left arm, concealed his father's watch and purse, his own purse, the .38 calibre revolver and a pasteboard box containing eight discharged cartridges in bushes several miles away, and returned to Austin with a story that two robbers had perpetrated the crime.

**Led Officers to Cache**  
Subsequently, after nine hours grilling, he led officers to the place where he had hidden the watch, purses, pistol and box, all of which were recovered. Officers found two other discharged cartridges in the pistol and three at the scene of the killing.

In charging the youth formally with murder, Sheriff Lee Allen said "We have found the motive." Pierson told newspapermen he had "a good reason," but officers quoted him as saying he did it for "revenge."

Pierson made the confession after a wild night in which he twice was taken to the scene, once to direct officers to the bodies and again to recover the gun and other articles. He also was taken to the morgue to view the bodies during which his calm was not broken.

"How long had you been planning the killing?" he was asked. "Not very long," he replied.

Q. You don't deny that you did it?

A. No.

**Remembers Everything**

Q. Your mind didn't suddenly go blank out there, or something of that sort?

A. I remember it all.

Q. Did you hit your father? (Judge Pierson had marks on his head as though he had been struck.)

Young Pierson's eyes flashed as he answered:

"I didn't do that. He must have fallen."

Q. Why did you shoot your mother first?

A. Because she was closest to me.

Justice Pierson was born in Gilmer Upshur county, Tex., March 12, 1871, and was educated at Baylor University and the University of Texas.

## TWO DIE IN FIRE

Evansville, Ind., April 25.—(AP)—Mrs. Gilbert Trigg, 17, and her seven-month-old son, Donnie, died today in a fire that followed explosion of a stove in their apartment.

The exposure and denunciation of corruption in government. As a result, he said, "the newspaper has incurred the ill will of ambitious politicians and become the chief exponent of the freedom of the press."

Asserting that a free press was of little use if it had to depend on false information, Bryan said 53 agents were putting out propaganda for federal departments and agencies.

"In the first year of its existence," he added, "the AAA issued 5,000 news releases. In the latter part of 1933 there was no newspaper big enough, even if it had discarded all its news and advertising, to carry the handouts from Washington daily."

"The Department of Agriculture used to issue purely factual bulletins," he said. "They are now propaganda bulletins, aimed to create a special state of mind."

## WOMEN GETTING MANY NEW TIPS ON KITCHEN ART

### Last Session of Cooking School Will Be Held Tomorrow P. M.

The fascination of good cookery and the desire to learn new methods and theories have drawn hundreds of homemakers to the session held the past two days this week at the Schuler building. The session today drew the largest attendance and climaxed one of the most interesting lessons.

The first day about three hundred women attended.

Dorothy Diggle, an experienced culinary expert, who has conducted the school, has been received enthusiastically by her classes. She has offered new and different dishes and given attractive variations for many old favorites. She has been besieged with requests for special breakfast, luncheon and dinner menus, and many other recipes.

Following are the recipes she demonstrated today:

**Ice-Refrigerator Rolls.**  
Mix one cup potato water (boiling) with one-half cup butter, one-half cup sugar and one-half teaspoon salt. When cool, stir in one compressed yeast cake that has been dissolved in two tablespoons warm water and one-half teaspoon sugar. Then add two well beaten eggs and two cups sifted flour—beat thoroughly, and then add two cups more sifted flour. Do not knead. Place in ice-refrigerator until needed. This will keep ten days.

**Baked Pork Chops.**  
Brown chops well, cover generously with chili sauce and a slice of onion; add one-half cup water. Bake for thirty minutes at 350 degrees.

**Ice-Refrigerator Cookies.**  
Two cups butter; two cups sugar; five eggs; one and one-half teaspoons salt; two teaspoons baking soda; eight cups flour; two teaspoons vanilla; one cup chopped pecans; two teaspoons cinnamon.

Cream the butter, add the sugar and mix. Add the slightly beaten eggs, the vanilla and nuts. Sift flour, salt, and baking soda and add gradually; the last two cups will be kneaded in the mixture. Roll into long rolls the size of a wrist and keep in ice refrigerator. Slice one-fourth inch slices and bake about ten minutes in oven (450 degrees). This dough may be kept indefinitely in your ice refrigerator and sliced off on ly when needed.

**Chocolate Iceing.**  
Six tablespoons butter; three-fourths teaspoon vanilla; two tablespoons milk; three cups sifted sugar; two and one-fourth squares unsweetened chocolate—melted.

Cream butter, add one cup sugar and cream thoroughly. Add vanilla and melted chocolate. Add remaining sugar gradually; thin with milk until the right consistency is spread.

Salad receipts were given in class.

**Chocolate Cake.**  
One-half cup butter; one egg sugar; one cup milk; two and one-half cups flour; two and one-half teaspoons baking powder.

Cream butter, add sugar and blend well together. Sift flour with baking powder and alternate with the milk to butter mixture. Melt four squares of bitter chocolate over hot water and to that add three-fourths cup sugar, one-half cup milk and one egg.

## DAUGHTER OF LATE OREGON JUSTICE SUED

### One of Principals in Alienation Action in Cook County

Chicago, April 25.—(AP)—Love letters purported to have been written by Marjorie Townley Mytar to her former husband, William N. Mytar, Springfield, Ill., business man, were ruled out of evidence in circuit court today where Mytar is seeking \$50,000 damages from his former in-laws for alienation of affections.

Defendants in the case are Mr. and Mrs. Charles W. Townley, of Chicago, who, Mytar charges, influenced his former wife to divorce him. The young couple married in 1930 while attending the University of Illinois. Mrs. Mytar obtained a divorce in 1934 on grounds of desertion.

Through the love letters, Ernest Lowery, Mytar's attorney, sought to show that Marjorie's love for her husband, while she was living with her parents in Springfield during the summer of 1930 and he was at Urbana, was first intense, but later became cool, allegedly because of her parents' attitude.

**Letters Not Admitted.**

Despite the strenuous efforts of Mytar's attorney to have the letters read to the jury, Judge Herbert F. Anderson refused to admit the packet of notes in evidence.

On the witness stand Mytar, describing visits to the Springfield home of his wife's parents, said he and Mrs. Mytar were allowed no privacy.

"On one occasion," he said "although it was a warm day, Mr. Townley wouldn't let Marjorie go on the front porch because the neighbors would see us."

"When I called in the evening, she would have Marjorie's young sister, Genevieve, sit in the same room, reading a book. Genevieve was very nice about it and paid more attention to the book than to us."

Mrs. Townley is the daughter of the late James H. Cartwright, of Oregon, Ill., former Chief Justice of the Illinois supreme court.

## Physical Work in Dixon Schools to be Shown Tomorrow

### A demonstration of the physical education work of the Dixon public schools will be held Friday at 7:30 P. M. in the high school gymnasium.

This demonstration included all pupils from the fifth, sixth, seventh and eighth grades and the gymnasium classes for girls of the Dixon high school. This will be open to parents and other people interested in school work. Children will not be admitted unless accompanied by an adult.

A demonstration of physical education work for pupils from the first, second, third and fourth grades will be held Wednesday May 1, at 1:45 P. M., in the high school gymnasium. This will be open to parents and the general public.

These demonstrations are held under the supervision of Miss Helen Hiland, Supervisor of Physical Education in the Dixon public schools.

## Work Relief Projects in County Stopped Today to Conserve Limited Funds

### NO HOUSE VOTE ON SALES TAXES TILL NEXT WEEK

### Governor May Plead in Washington for Additional Funds

### BULLETIN

Springfield, Ill., April 25.—(AP)—Speaker John P. Devine today announced the House will make no effort this week to advance the administration's three per cent sales tax bills, which cannot now be enacted before the deadline of the May 1 relief financing crisis.

Because many Democratic Representatives had left Springfield, administration leaders postponed their efforts to advance to third reading the bills passed by the Senate last night after a prolonged fight.

Meanwhile it was expected that Governor Horner, who will go to Washington this week end to attend a crime conference, will consult with Federal relief officials in an effort to get additional grants to enable the Illinois Emergency Relief Commission to continue its operations.

The Senate adjourned until Tuesday, making it impossible for the House to meet tomorrow.

If House leaders can round up the required 102 emergency votes, the increased tax bills can be advanced to third reading in the House Tuesday and sent to the Governor Wednesday, he said.

Harry L. Hopkins of the Federal relief administration has threatened to stop grants to Illinois unless the legislature provides \$3,000,000 monthly.

Springfield, Ill., Apr. 25.—(AP)—The three per cent sales tax bill and its companion utility measure have passed the senate.

Approval for the two measures, which Governor Horner has said are necessary to keep relief stations open after next Tuesday, was given by the senate last night without a vote to spare.

Thirty-four senators voted for the bills, 14 were recorded in opposition and three members did not vote.

The measures today are before the house, where they were advanced to second heading immediately after senate passage. It is possible the house may vote on them tomorrow although present plans call for sue action next Tuesday.

Senate passage came after a day devoted to a caucus of Democrats during which six members of the Illinois Emergency Relief commission pledged a reorganization of relief distribution.

## For Downstate Director

Robert J. Dunham, chairman of the commission, and his associates promised the Democratic senators that if the bills were passed they would establish a Springfield office, headed by a downstate administrator who would be in charge of relief activities in the 101 counties other than Cook.

Several Democratic senators also made it plain to the commission that it was to be on trial for the next two months and that unless many practices to which they objected were changed.

## Will be Resumed if Legislature Provides Finances

### Tax Provisions

Springfield, Ill., April 25.—(AP)—The sales tax-relief bills passed by the senate and now waiting house action provide:

(1) An increase in the present sales tax from two to three per cent from May 1, 1935 to June 30, 1937, after which the tax would, unless other action is taken, be reduced to the present figure.

(2) A three per cent tax on the gross retail receipts of utilities, whether publicly or privately owned, until June 30, 1937, when the rate would be reduced to two per cent.

Some officers believe the two taxes will raise \$26,000,000 annually in addition to the approximately \$40,000,000 annually raised by the present two per cent sales tax.

The \$26,000,000 would be applied to unemployment relief. This is \$10,000,000 short of the annual amount demanded as the state's share by federal relief administrators. Administration leaders hope the government's plan to take care of the employables will make it unnecessary for the state to provide the other \$10,000,000.

Immediately, it was the plan to continue the work relief program with federal relief funds, the administrator announced. The action in halting all work relief in the county was taken for the purpose of conserving the funds remaining. Checks for work completed up to today will be mailed to the relief workers and received by them the first of next week.

It might be two other girls, but it's not the Mae West of buxom, billyow charms whose name adorns this marriage license, and you can take that or not straight from THE Mae West herself. "Did I marry Frank Wallace in 1911? Never heard of the guy. Besides, I was too little to get married in 1911. How old do you think I am?" Despite Mae's firm denial, there are skeptics who point out that the parents' names given on the Milwaukee license shown above are the same as those of Mae's father and mother. Broadway says Wallace, an actor, has been dead for two years.

## Married? Mae Never Heard of Guy

When Mae West gets married, she'll be the first to know it and then she'll tell the world, says the buxom charmer, shown here in glamorous pose. That's her answer to the report that she married Actor Frank Wallace in 1911, as indicated by a marriage license revealed in Milwaukee. She disposes of the matter tersely with "I never heard of the guy."

## Chevrolet Strikers Picket at Toledo

Chain pickets of the United Auto Workers Federal Union are shown above effectively closing the Chevrolet plant at Toledo, O., in a strike that may possibly involve all of the key automobile industry. The U. A. W. decisively won government elections at the plant, which makes all the transmissions for Chevrolet and most of those for Pontiac. The strike was called when efforts failed to reach a collective bargaining agreement with the General Motors management.

prevent relief stations from closing.

Mark Penick, Quincy Democrat, denounced the IERC, said he would continue to seek its abolition but voted for the bills with the statement that he knew no other way to keep relief stations in his district open.

L. O. Williams Clinton Democrat and sponsor of the bills, said dire calamities would ensue if relief ended next week.

He was joined in this plea by James J. Barbour, Evanston Republican Earl Searcy, Springfield, and Noah Mason, Oglesby, both Republicans, devoted their attacks on the measures largely to denunciations of relief administration, Searcy centered much of his fire on Hopkins.

After an hour of oratory, call of the roll was started and a number of senators took time to explain their votes.

Four Kept Silence  
Richard Barr, Joliet Republican, voted no, but after the measure had received 26 votes, sufficient for its passage without an emergency clause, he changed to yes. Finally 33 votes were mustered. Four senators, Ewing, Monroe, Boeke and Karraker, had not answered.

There was considerable of a lull while all waited to determine whether the administration had reached its maximum strength or whether one of the four would come to its rescue.

Then Monroe, long a bitter critic of both the sales tax and the Horner administration, arose. He said he had sacrificed none of his opposition either to the sales tax or to the Horner administration, but that he could not refuse, when no other plan of continuing relief had a chance of passage, to vote for the bills and keep relief stations in his district open.

The senate roll call on the tax increases:

### THE FIRST VIRTUE

By Dr. Joseph Fort Newton

"SIR," said Dr. Johnson, "you know courage is reckoned the greatest of all virtues; because, unless a man has that virtue, he has no security for preserving any other."

Johnson himself had no small measure of it, though all his life he was haunted by an "awful dread of death," or rather "of the something after death," but even that fear left him toward the end.

As someone said truly, he feared nothing else, not even what might occasion death; and at last a loving fear of God put an end to all other fears—as it will do for us if we let it.

Yes, courage is the first virtue. If not the last. At any rate it is the basis of every virtue; and it is not strange that mankind has paid such high honor to its high heroic leaders.

All the great heroes of the race—their faults, failings, and weaknesses, but they live in the

legend of mankind because, at critical epochs of humanity, and in their own lives, they were not afraid.

Again and again one great-hearted man, by the grace of sheer grit has hushed the dreary drip of paralyzing counsels of despair, and called a wavering nation to make a great advance.

If panic is contagious, so is courage. A young man in college read the Defense of Socrates in Greek, and said to his teacher: "I came into this class afraid of death. Now I am not afraid!"

The serene courage with which a great soul met dark fatality, mastering matter by the power of mind, looking into the shadow and seeing beyond it, has exalted and sustained mankind for ages.

Without courage no progress can be made. Every step in advance is in defiance of dull stupidity and fear. Men always say that a thing cannot be done until some brave soul dares to do it.

It is easy to be brave, once we learn the trick of it. Take a day at a time—now can be brave for one day. Tomorrow everything may be changed. In the end, courage is our only real security.

### Humphrey-Crosier Wedding March 2

At a meeting of young people of Rock Falls M. E. church Tuesday evening at the home of Wilson King, announcement was made of the marriage of two of the group's members, Miss Harriet J. Crosier and Floyd Humphrey. The Rev. H. T. Chenoweth, who was the bride's pastor when she lived in Morrison, read the service on Saturday, Mar. 2, at 7 P. M. in his Methodist parsonage at Rock Falls. Miss Darlene Sitter of Sterling and Gordon Rhyme of Rock Falls attended the couple.

Mr. and Mrs. Humphrey are residing temporarily with the groom's parents, Mr. and Mrs. Fred Humphrey, 222 Avenue E, Rock Falls. The bride, daughter of Mrs. Jennie A. Crosier, formerly of Capron, was graduated from Capron high school and later resided in Morrison before going to Rock Falls. Mr. Humphrey, who was graduated from Rock Falls township high school, is employed by Lawrence Brothers.

### Church Welcomes Her New Members

The new members recently received through the Pre-Easter evangelistic services at the First Christian church were tendered a cordial reception on the part of the membership last evening. A large crowd gathered for the preaching service that preceded the reception. The new members were decorated with a card bearing their names attached by a bit of pink ribbon. Following the sermon, Rev. Barnett administered the ordinance of baptism to twelve candidates. The roll of new members was called and a kne formed in front of the pulpit. While Miss Goldie Gignou played appropriate selections on the organ the congregation filed past extending the hand of fellowship to the guests. A social hour closed the evening's program. The wives of the deacons served cake and ice cream to all present.

Thirty four new members have been received since the meetings began, April 7. There were thirty in the last evening at the fellowship service. Mrs. Calvin Brown acted as chairman of the ladies committee. Mrs. J. A. Barnett and Miss Ethel Fish acted as a special committee to receive the guests and to pin the name cards upon them.

### Mrs. Welch Entertains N. R. A. Club

Mrs. Wilbur Welch entertained the N. R. A. club at her home on Tuesday evening with a 6 o'clock dinner.

A short business meeting was held. A handkerchief shower was held for Miss Selma Reed, the occasion being her birthday.

Five hundred was played. Miss Ann McKinney won first prize and Mrs. Mabel Stetson won the consolation prize.

### Many Pre-Nuptial Events for Clara Stager, Sterling

One of the most important and beautiful weddings of the spring season in Sterling and Dixon, will take place Saturday, May 4th, at the Grace Episcopal church in Sterling, at 4 o'clock in the afternoon. At this time Miss Clara Stager, daughter of Attorney and Mrs. John M. Stager, of Sterling will be united in marriage to J. K. Burnham Hockaday of Chicago and Kansas City, Mo. The wedding will be followed by a reception at Larchwood, the Stager home.

Miss Stager is one of Sterling's most attractive and accomplished young ladies. With her sister, Miss Mary Stager, she studied music in New York City a few years ago. The marriage is being preceded by a series of parties and social affairs.

Sunday night, April 14th, Mr. and Mrs. F. A. Grimes and their daughter, Miss Helen, entertained with a dinner at home for Miss Stager and her fiancé, Mr. Hockaday.

Yesterday Mrs. George G. Grandon entertained most delightfully at her home in Sterling with a luncheon honoring Miss Stager. Spring flowers graced the beautifully appointed table and the home. The afternoon was one of pleasure for all attending.

Beginning on Thursday evening May 2 when Dr. and Mrs. Z. W. Moss, uncle and aunt of Miss Stager, will give a dinner in their home, Whitthorne Hill, at Dixon, the remainder of the week until the wedding is filled with social events.

Mrs. H. H. Wood of Sterling, and her daughter, Mrs. Susan Watson Gooch, the former Susan Wood and a bride last year, who is coming on from her home in Roanoke, Va., for the wedding, will entertain the girls in the wedding party and out of town wedding guests for luncheon in the Wood home, Friday, May 4. Mr. Wood is giving a luncheon on the same day for the men in the wedding party and out of town guests.

On Friday evening a buffet supper for the wedding party and out of town guests is being given by Mrs. Paul W. Dillon of Sterling and her daughter, Mrs. John Goddard of Lancaster, Pa., the former Jane Dillon in the Dillon home. Mrs. Goddard will be one of Miss Stager's bridesmaids.

Following the buffet supper Miss Mary Stager is having a dancing party for her sister and fiancé, at the Sterling Club.

On the morning of the wedding Mrs. Q. W. Hungate and Mrs. A. W. Wheeler will entertain with an 11 o'clock wedding breakfast in the Hungate home in Sterling.

### R. N. A. Celebrates Birthday Tonight

The Royal Neighbors of America, celebrate their fortieth birthday anniversary today. This evening a picnic supper will be held in Woodman hall with picnic rules to be observed, the supper to be served at 6:30. Cards and bunco will follow the supper, and a happy evening is expected. The Ashton lodge has been invited to attend and no doubt there will be a good attendance and many visitors. District Deputy Louise Lindberg is expected to be present.

All Royal Neighbors and their families are cordially urged to attend this evening and enjoy themselves and make the guests welcome.

### Miss Lillian Alexander Was Honored

Mr. and Mrs. Fred Alexander of 604 Avenue A, Rock Falls, entertained at a kitchen shower Tuesday evening for their daughter, Miss Lillian Mae, who will be married soon to Wilbur McNinch of Rock Falls. Thirty-five relatives and friends were guests. Several hours were pleasantly spent in playing pinocle and a delicious lunch was served.

A number of useful gifts were presented to the bride and groom for their new home. They also received best wishes for happiness in their married life.

STAFF MEETING OF DOCTORS FRIDAY EVENING—

The monthly staff meeting of the doctors of the Katherine Shaw Bethesda hospital will be held Friday evening at 7:30 at the hospital. All the Dixon nurses are requested to attend.

### Mrs. Lester Street Made Dist. Pres. At Rockford Meeting

The District Convention for Auxiliary of the United Spanish War Veterans was held yesterday in Rockford, and a number of the Dixon Auxiliary of the Baldwin Camp, attended, including Mrs. Lester Street, who was honored in being selected as the District President. Other members of the Baldwin Auxiliary who attended were Mrs. Lottie Horton, Past District President; Mrs. Della Bott, Emma Holland, Spanish-American War Nurse, Kathleen Goodwin, Hattie Rossiter, Kate Doctor, Louise Holderman, Margaret Coleman, Anna Bott, Florence Cole, Hilma Helmick, Dora Heft, Phoebe Humphrey and Alice Hemmen.

### Benefit Concert Is A Successful And Delightful Event

In the North Central school last evening the Troubadettes, directed by Mrs. E. M. Goodson, and accompanied by Mrs. Lyle Prescott, and Russell Mason, flutist, accompanied by Mrs. J. Horner, presented a most enjoyable concert. It was a most successful concert, too, from a financial standpoint, and that was important last evening, for the receipts are to be devoted to the piano fund for the school, and now the instrument, long wanted by pupils and teachers is an assured fact.

Mrs. Harry Warner, chairman of the committee from the P. T. A., sponsoring the affair, is well pleased with the result and announced that \$38.00 is the sum realized, which is clear as all the

musicians donated their services. The concert of varied and delightful selections pleased the large audience for their applause was sustained and enthusiastic. Mrs. Goodson will be proud of the Troubadettes, all appearing like animated flowers in their lovely formal gowns, making a charming and colorful group as they sang their melodious way through the delightful program, accompanied by Mrs. Prescott who is a most sympathetic and accomplished accompanist.

Russell Mason, flutist, accompanied by Mrs. J. Horner, gave much pleasure in the several groups he presented, playing with true musicianship and fine expression. Mrs. Horner is also a most accomplished and sympathetic accompanist.

The children who sold tickets also come in for a word of praise, for they worked faithfully in so doing.

### 37th Convention 13th Dist. Ill. Federation Women's Club Held

The 37th annual convention of the 13th district of Illinois Federation of Women's Club will be held May 2 and 3 in the First Methodist church in Freeport, Mrs. H. L. Heer, Galena, district president, presiding.

The executive board meets on Thursday, May 2, at 9:15 A. M. Thursday night the annual banquet will be held in the Presbyterian church, with an address by Adalyn Wright Macauley of Menomonee, Wis., "said to be the most captivating speaker on the American platform." On May 3rd election of officers will take place, a memorial service and reports.

OF VICTORY

There was nothing especially exciting about the news that seven fat English hedgehogs were landed in New York City the other day. But that bit of news may be the prelude to victory in one of the most amazing fights the human race has ever waged.

It is to be the fate of these hedgehogs to suffer and die of yellow fever, somewhere in the aseptic rooms of the Rockefeller Institute. If things go as the scientists hope, the little animals will make possible the cheap propagation of yellow fever vaccine, and man's conquest of this plague will finally be complete.

It is more than 30 years since the first great battle against yellow fever was won.

Dr. Walter Reed and his colleagues in Cuba discovered that the plague is transmitted by the female stegomyia mosquito. They got no nearer to a cure or a vaccine for the disease than they had been before, but they at least made it possible for the plague to be abolished wherever conditions were such that the mosquito could be abolished.

As a result, such plague spots as Havana and Panama were cleaned up, and yellow fever was driven out.

But the victory was only partly won. There are many places in the tropics where it is utterly impossible to destroy all mosquitoes. In such places yellow fever is as great a curse as ever.

So the scientists next turned their attention to the quest for a vaccine which would provide immunity against the disease in the same way that immunity against typhoid or smallpox is provided by existing vaccines.

The search has been long, difficult, and dangerous. Many scientists themselves contracted the plague and died of it during the quest. For at time it looked as if no living creatures on earth except man and the stegomyia mosquito were susceptible to yellow fever.

Then, in 1928, Drs. Stokes, Bauer, and Hudson succeeded in giving the disease to the rhesus monkey of India. This was a great advance, but it still did not make possible the production of a cheap vaccine in large quantities.

At last, less than a year ago, Drs. Findlay and Clarke of England discovered that the common English hedgehog can also be inoculated with the disease. This brought a cheap vaccine within sight, the supply of hedgehogs being more abundant than that of rhesus monkeys.

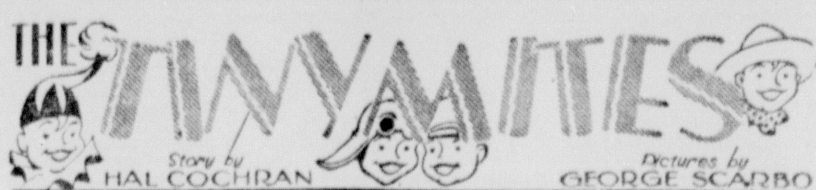

Now the Rockefeller Institute workers are to put the matter to the test, using these luckless little creatures from England in experiments which may finally banish yellow fever from the earth.

It is a long and heroic story. Men of all nations have co-operated in the fight. The whole thing is something to restore one's faith in the human race.

I know my friends in America are not only thinking of me, but also praying for me in my efforts to maintain and strengthen the peace of the world.—Prime Minister Ramsay MacDonald of Great Britain.

I no longer doubt. I know that there is nothing after death—nothing to look forward to in joy or fear. I am going to die in a little while and that will be the end—absolutely the end.—Clarence Darrow.

Any man who condones the NRA, the AAA, and other things going on in this country is a radical.—Governor Talmadge of Georgia.

(READ THE STORY THEN COLOR THE PICTURE)

The monkeys didn't seem to care what happened, as they flew thru the air. Their tricks upon the bars were just as clever as they could be.

Though Coppy warned them to look out, they kept on whirling all about. "How they hang on," said Goldy "is a mystery to me."

"They jump from one bar to the next and at no time are they perplexed. I guess it is born in monkeys to do crazy stunts like that."

"Why, if I tried one little turn, I know I'd very quickly learn that I am very clumsy. I would miss and then fall flat."

"Well, maybe you would make a mess with such performing, but I guess that I could do it, if I tried," said Dunce, with a grin.

"Go on," he heard somebody cry. "We would really love to see you try." "Oh, no!" said Dunce, rather weakly. "I'd be butting in."

Soon Scouty thought they had seen enough. "The monkeys, now, have shown their stuff," said he. "Back to their cages it is time for them to go."

Then to the fatties he cried out. "We've given you a treat, no doubt. The monkeys staged the last act. That's the end of our fine show."

The fatties all cheered loud and long. Then Scouty told the Tiny crowd, "the animals will pull the cages back where they belong."

"We will hitch some up, and let some ride," "A good idea," Windy cried. "Let's only hitch the beasts that we feel sure are good and strong."

The fatties gladly lent a hand. "You tots have treated us just grand," said one of them. "We surely hope that you'll return some day."

## DAILY HEALTH

## ATHLETE'S FOOT

The name "athlete's foot" suggests the confirmed idea that this disease is associated with gymnasia public baths and similar establishments. There is a mass of contradictory evidence on this question. Recently a thoroughgoing study on the infection, treatment and prevention of this condition was made in Germany, and the facts reported are:

An entirely satisfactory treatment for this condition, one that will prove effective in all cases, is

still lacking. Certain chemicals, however, have been found to be distinctly more effective than others.

Thus, one of the most effective is the dye known as brilliant green. Acridine hydrochloride, and solutions of formaldehyde are given as rankings next in effectiveness. Salicylic acid, benzoic acid, sulphur, tar and alcohol have only slight values as remedies, though they may serve as preventives. Bichloride of mercury solutions, iodine and chlorine are very destructive to the fungi. Usually, treatments can be utilized safely only under medical supervision.

It is extremely difficult to prevent

the spread of the fungus of athlete's foot. However, the addition of chlorine to bathing water in pools, the cleaning of floors with carbolic acid, and the disinfection of bath sponges and other bath accessories with solutions of formaldehyde, thymol or alcohol, are of distinct value.

Washing the feet with mild solutions of formaldehyde followed by alcohol rubs, and the use of disinfecting powders consisting of sulphur, often are recommended.

It should be borne in mind that footgear itself can become infected, and can remain infected for a long period. Hence, stockings should be changed daily and should be washed

before being worn again. The inside of the shoes can be sprayed with a formaldehyde solution and subsequently can be dusted with talcum powder.

## PROCESS TAXES LEVY ON BREAD, MEAT AND CLOTH

### American Cotton Manu- facturers Assn. Hears Attack on New Deal

Augusta, Ga., April 25—(AP)—A bitter denunciation of the cotton processing tax, coupled with a demand for the resignation of Secretary Wallace, was heard today at the opening of the American Cotton Manufacturers Association convention.

W. D. Anderson, president of the organization, composed of southerners, charged in a prepared address that Wallace is "plainly lacking in business judgment, in knowledge of ordinary business facilities and in common sense."

"Mr. Wallace ought to resign his post, take Professor Tugwell (Undersecretary of Agriculture) with him, and start a farm paper somewhere," Anderson said.

"This would enable him to preach to his heart's content and afford an opportunity for Professor Tugwell to exploit his dreams of applying Russian collectivism to this country."

#### Tax on Meat, Bread Clothes

The Macon, Ga., manufacturer declared the processing tax, levied on the mills and paid to farmers for reducing plantings, has seriously affected the cotton textile industry.

Textile operators from all parts of the south were here for the convention, one of the most momentous sessions in recent years. Marvin H. McIntyre, a secretary to President Roosevelt, was expected today, coming south to hear what the cotton mill men say about the processing tax.

Citing increased Japanese textile imports and greater uses of synthetic fibres, Anderson called the processing tax on cotton, wheat, corn and hogs "a gigantic sales tax of from 15 to 25 per cent on the meat, bread and clothes of the people."

He asserted the tax was levied against cotton but not against other competing commodities.

## INTEREST RATES TO BE REDUCED ON BANK LOANS

### A Change Was Made on Land Bank Loans, 10th

A reduction in interest rates to 4½ per cent on new Federal land bank loans made after April 10 through National Farm Loan Associations, has been announced by L. S. Griffith, secretary-treasurer of the Lee County National Farm Loan Association of Amboy. These new rates, the lowest at which the Federal Land Bank has ever made loans, will not affect loans made prior to April 10.

For about two years loans have been made through national farm loan associations at 5 per cent with a temporary reduction to 4½ per cent until July 12, 1935, as provided by the Emergency Farm Mortgage Act of 1933. After July 12, 1935, these loans will bear interest at the rate of 5 per cent while the 4½ per cent rate on new loans will be effective for the entire period of the loans, ranging from 20 to 30 odd years on an amortized basis, as in the past. The reduction will not affect the 5 per cent interest rate on land bank commissioner loans.

This lowered rate bears out the interest of the Federal Land Bank system to pass on to borrowers every advantage possible in financing farm loans over a long period with most liberal prepayment privileges.

### KRAKATOA ERUPTION

Krakatoa is a volcanic island in the Sunda strait, Netherland Indies. This island blew up in August, 1883, with a report that was heard 3,000 miles away. Thousands and thousands of persons were killed by tidal waves in places that were hundreds of miles from the island. The Sunda strait lies between Java and Sumatra.

## "COLLEGE GRID TEAMS WILL BE PROFESSIONAL"

### Economics Professor Foresees End Of Amateurism

Pittsburgh, April 25—(AP)—A future in which America's college football teams as a matter of course will be composed of "professional performers, college trained and sponsored" is the frank forecast of Dr. Francis D. Tyson, who classes amateurism as "a piece of snobbery."

Dr. Tyson, economics professor and member of the University of Pittsburgh athletic council, told 1,000 physical education teachers last night that frank professionalism should be substituted for the existing athletic "hypocrisy" in the country's colleges.

"Amateurism in sport in the United States is really a piece of snobbery out of place in a democracy," Dr. Tyson said before the American physical education association. "We are dealing with 'cultural lag,' the persistence of outworn notions in a new world. Amateurism is a hangover from the British aristocratic tradition."

He asked if it were not quite inconsistent "to praise students for working their way through college by waiting on fraternity tables, which they often do badly, and blame them for earning a little money by playing football, which they do very well?"

### THE EVANGELINE COUNTRY

The Evangeline Country of Louisiana, where the French Acadians settled, is what is known as the Teche country, which refers to the entire region adjacent to the Bayou Teche. It is estimated that French Acadians numbering more than 6,000 were deported by the English government in 1755 from Nova Scotia.

# COOKING SCHOOL

Tomorrow is the last opportunity you have to hear Dorothy Diggle lecture on home making. She has many new ideas for your dinner parties. Now is the time to learn of the merits of ice in preserving food.

## TRY THIS NOSE TEST ....

Put your nose at the bottom of the refrigerator in your own home or apartment and open the door just a trifle—no matter whether an ice refrigerator, mechanical or what not.

If a foul sewer-like odor rolls out, the air in the food chamber is not properly conditioned and your own nose will tell you whether foods should be stored in such air.

(In the normal use of a refrigerator you do not smell the food chamber when you are standing up, as the air of the level of your nose is room air rushing in to replace the cold and heavy air pouring out of the refrigerator at the lowest point of opening.)

**ICE**

**HAVE YOU BEEN THINKING:**

That ice refrigerators are not as beautiful items of home furniture as they might be?

**THE TRUTH IS:**

That manufacturers have fully awakened to a justified complaint of the past, and the 1935 air conditioned refrigerators are the very last word in beautiful design, finish, hardware, convenience, etc. Many women who have had mental pictures of the old fashioned "ice box" are amazed when they see the snow-white, ideally designed, beautifully trimmed and scientifically constructed refrigerators in our demonstration room.

**ICE**

**HAVE YOU BEEN TOLD:**

That air conditioning within the food storage space of your refrigerator is not of just as much importance as keeping the foods at low temperatures?

**THE TRUTH IS:**

That unless the air is properly conditioned there will be stagnant air, saturated with odors and gases and floating particles of disintegration, permeating your foods regardless of how carefully you may "flee" them in covered dishes. The modern ice refrigerator is the only device that gives food space air conditioning, constantly washing and purifying the air.

DRAKE, PENN VIE FOR NEW RELAY TALENT

Drake Attracting the Middlewestern Athletes

New York, April 25 —(AP)—The foremost college athletes of America should furnish some startling spring performances in the two big relay carnivals starting tomorrow at Philadelphia and Des Moines, if they can match the briskness with which the rival university managers have worked to obtain the best possible "gate" attractions.

The annual battle of entry blanks between Drake and the University of Pennsylvania has been getting livelier, if not actually more acrimonious, for the last few years. Not only are substantial gate receipts at stake, but a sharp sectional rivalry has grown up, with consequent arguments and comparison of performances at the two meets.

Pennsylvania has the prestige of tradition behind its carnival, the first to introduce relay racing on a big scale, but Drake has shown enterprise in capitalizing its central location and largely has taken away the middle western entries which formerly sought honors in the east.

**Withdrawn from Relays**

Last season the Louisiana State squad, headed by "Baby Jack" Torrance, world record shotputter, with drew from the Penn relays on short notice and went to Des Moines, pleading the necessity of a shorter trip to avoid classroom complications.

This year Torrance, "Slat" Hardin and the rest of the L. S. U. array are definitely booked to compete at Franklin field, but Drake persuaded the crack Ohio State team featuring the sensational Jesse Owens, to shift its entry from Philadelphia to Des Moines.

To offset the loss of the "Buckeye Bullet," who turned in a remarkable feat this week by racing 100 yards from a flying start in 8.4 seconds, Pennsylvania has obtained Willis Ward, Michigan's one man track team, and has lined up a crack field of eastern sprinters to meet Herman Neugrass of Tulane, latest southern sensation.

Neugrass has been clocked in 9.4 seconds for the 100, with a following wind. Columbia's Ben Johnson, national indoor sprint king, as well as Ward and Eulace Peacock of Temple, another Negro flier, are among those slated to test the Dixie sprinter.

Drake has capitalized a "natural" by matching Glenn Cunningham, world champion miler, and Glenn Dawson for a return duel at three-quarters of a mile. Dawson sprang a surprise victory over Cunningham Saturday in the Kansas relays, catching Cunningham off form. Last year Cunningham beat his old Pennsylvanian rival, Gene Venzke, in the headline foot race at Philadelphia.

**Exhibit Jack Rand**

The carnival at Des Moines, besides drawing the bulk of mid-western talent, will exhibit Jack Rand, national collegiate A. A. pole vault champion from San Diego, and the University of Arizona's team for in sectional color. Iowa's crack sprinters, including Jimmy Owen, who broke the world record for the 440 and 880 relays last week at Kansas, figure to set the pace in the baton passing events.

Led by Manhattan and Cornell, which shared the main relay honors last spring, the eastern "old guard" will be strongly represented at Philadelphia.

Pennsylvania's Gene Venzke, slated to run anchor legs in two relays, and Yale's Keith Brown, confining himself to his favorite event, the pole vault, should share the individual spotlight with the southern talent, including stars from the Virginia and Carolina sectors, as well as Louisiana.

"Slat" Hardin, the L. S. U. quarter miler and hurdles star, should have no difficulty in cracking the carnival mark of 53.2 seconds for the 400 meter hurdles, set in 1932 by Gene Beatty of Michigan Normal. Hardin holds the world mark of 50.6 seconds.

Dixon Track Team Eyes Rock Falls Records in Dual Meet Here Today

High School Cinder-men Face Marks of Four Seasons

With hopeful eyes trained on records, some of which have stood since 1930, Dixon high's track and field team will compete with Rock Falls high this afternoon on the local field beginning at 3:45 o'clock.

Seven track and seven field events will be held climaxed by the relay race, the last event of the afternoon. Run off in consecutive order on the track will be the 120 yard high hurdles, the 100 yard dash, the mile run, the 440 yard dash, the 220 yard low hurdles, the 220 yard dash, and the 880 yard run. Simultaneously in the field the following events will be run: pole vault, high jump, broad jump, javelin, discus, shotput, and the relay race.

New records were established in 1934 in the 100 yard and 220 yard dashes, the 440 yard dash, 880 yard run, broad jump, all of them set by Dixon athletes. Flanagan won both the 100 yard and 220 yard sprints in 10.5 and 23.3 seconds for records. Stahl captured a new mark of 57 in the 440, and Padgett ran the 880 yard run in 2:10. Flanagan placed the new broad jump record of 26 ft. 2 in. feet on the books. All of these records apply to dual competition with Rock Falls only.

The Rock Falls team will be striving to not only outdistance these but to better marks set by their own men. In 1931, Westfall of Rock Falls won the 100 yard dash for a new record, which the Green and Black athletes since that time have failed to equal. The same applies to the 220 yard low hurdles won by Sharts in 1930. This record still is unbroken by either Dixon or Rock Falls athletes. It stands at 28.2 seconds. The 5:01.1 mile run mark established by Baker of Rock Falls in 1932 is unswayed by either team, and also Warfel's 5 ft. 3 in. leap in the high jump, another record of 1930 vintage. The third record that has stood for five years and accomplished by a Falls man is Wilkins' 42 ft. 7 in. heave of the shot, in 1930.

INDIANS WIN ANOTHER TO HOLD SECOND

White Sox Among the League Leaders This Year

By HUGH S. FULLERTON, Jr. (Associated Press Sports Writer)

A year ago the Chicago White Sox, rebuilt at a considerable expense, looked as if they might go somewhere, but they finished at the bottom of the American League. This spring, as the popular choice for the cellar berth, they have begun to make threatening gestures at the leaders, particularly the champion Detroit Tigers.

With a combination of heavy hitting by veterans and rookies alike plus a couple of excellent mound performances by the "freshman" right hander, John Whitehead, the Pale Hose have taken four out of five decisions from Detroit for a total record of five victories in eight starts.

Whitehead, who made his big league debut last week by limiting the champions to six hits, cut that figure in half yesterday to win 10 to 4. One of the blows was Bill Rogell's homer and another a trip to Mickey Cochrane, both in the second inning when the Tigers scored all their runs.

As backing the rookie got two homers by Zeke Bonura, one each by Al Simmons and Vernon Washington and eleven other assorted blows that enabled the Sox to come far behind to win.

**Loses 4-Hit Game**

In contrast to Whitehead's easy triumph, Fay Thomas, a "recruit" with a good bit of previous major league experience, turned in a four-hit game for the Browns and lost it 3-2 to Cleveland when he forced in the odd run in the ninth with his seventh walk. The triumph, their fifth in six starts, kept the Indians in second place ahead of Chicago.

The third American League contest saw Washington, with Bob Burke tossing a steady game, edge out the Athletics 3 to 2 despite Jimmie Fox's third home run of the year. The league leading Red

Dixon Dodgers Nine To Engage Nelson Cards

Nelson's Cardinals will be the opposition for the Dixon Dodgers baseball nine of Dixon, Sunday in a game to be played at Nelson, it was announced this morning.

The team at present holds a record of one victory and one defeat. Two weeks ago the Beers downed a team of East Enders 5 to 4, and then invaded Lee Center only to succumb by an 8 to 7 count. Against the Cards, the local battery will be Henry and Scriven. Clark will pitch for Nelson.

The locals are arranging for a game with West Brooklyn in two weeks. West Brooklyn sports a hurling ace in Knauer, formerly of the Los Angeles Angels of the Pacific Coast League. He is considered one of the fastest pitchers in northern Illinois.

A box score of the Lee Center game was not available.

Sox and the New York Yankees were rained out.

Another outstanding rookie flinger, Darrell (Cy) Blanton of Pittsburgh, struck out eleven Cincinnati batters and allowed only six hits to earn the Pirates to a 5 to 2 victory with the aid of a four-run rally in the eighth. In his first start Blanton shut out the Cardinals with one hit.

Fine pitching also marked the other National League contests. Van Mungo pitched the Dodgers to a 4 to 1 triumph over the Phillies, allowing only four hits and whiffing nine.

Hal Schumacher, the Giants' big right hander, limited the Ruthless Braves to three hits, losing a shut-out by Les Mallon's ninth inning homer and knocking in one run himself. The Babe failed to start because of a slight cold and struck out later in a brief appearance as a pinch batsman.

Lon Warneke rang up his third straight triumph for the Cubs, going ten innings to beat the Cards 7 to 6 when Dizzy Dean was nicked for three hits in the extra frame.

The malamute, frequently called the "husky" of the North is essentially a work dog. This is the type of sled animal used extensively to set up communications between northern communities when all other methods fail.

Miss Ryan Will Withdraw From Amateur Status

Rome, April 25—(AP)—Miss Elizabeth Ryan, California tennis star and co-holder of the Wimbledon women's doubles championship, said today she has definitely decided to withdraw from amateur tennis.

"I am retiring from amateur

championship tennis since I have decided I must earn my living," Miss Ryan said. "I don't know yet whether I will turn professional or what I will do."

"The important fact is my financial affairs in California have not been going well. I have had a wonderful ten years of tennis. Rome was my last big championship. I will stay in Florence a while before going to London, where I will decide what to do."

**KEARSARGE A WOODEN SHIP**

The Kearsarge was a wooden corvette, launched at Portsmouth, N. H., in September, 1861. During the Civil War, June 19, 1864, it sank the Confederate cruiser Alabama off Cherbourg. The vessel was itself wrecked on February 2, 1894, in the Caribbean sea.

Veterans of France and Germany to Meet

Paris, April 25 —(AP)— French and German veterans who confronted each other in the trenches in the last war will hold private conversations in Paris May 5 in continuation of their efforts to relieve tension between the countries.

The National Union of Combatants voted in its annual convention at Le Touquet today to enter into discussions with veterans of other countries in the cause of peace. It warned, however, that these efforts would be wrecked if Germany continued a policy of "prestige beyond reason."

Clean Out Kidney Poisons

Wash Out Your 15 Miles of Kidney Tubes

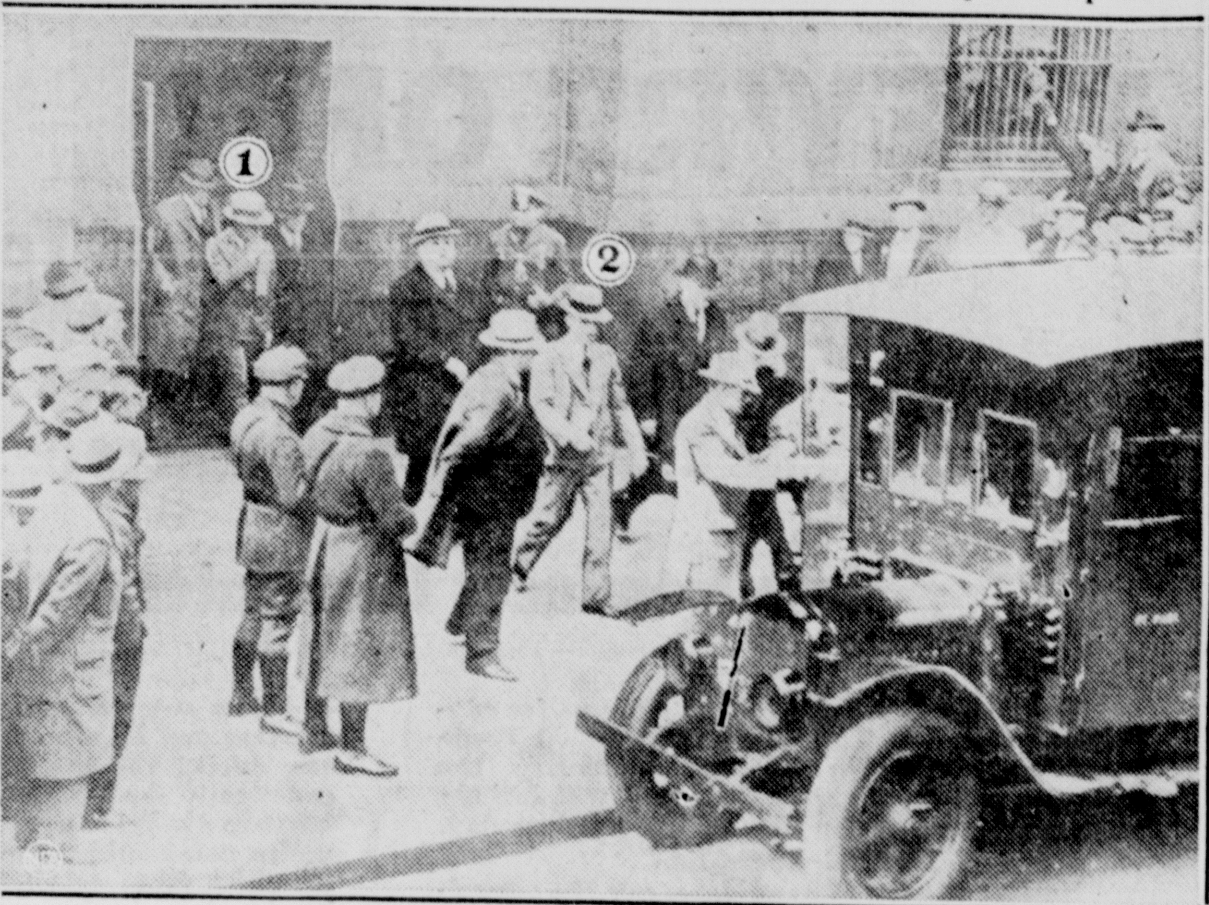

If kidneys don't pass 3 pints a day and get rid of more than 3 pounds of waste matter, the 15 miles of kidney tubes and filters may become clogged with poisonous waste and the danger of acid poisoning is greatly increased. Bladder passages are difficult, which often smart and burn like scalding water and cause discomfort.

This acid condition, brought about by poor kidney functions is a danger signal and may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

Most people watch their bowels which contain only 27 feet of intestines but neglect the kidneys which contain 15 miles of tiny tubes and filters. If these tubes or filters become clogged with poisons, it may knock you out and lay you up for many months. Don't run any risk. Make sure your kidneys empty 3 pints a day.

Most people watch their bowels which contain only 27 feet of intestines but neglect the kidneys which contain 15 miles of tiny tubes and filters. If these tubes or filters become clogged with poisons, it may knock you out and lay you up for many months. Don't run any risk. Make sure your kidneys empty 3 pints a day.

## Hold High Hopes for 1935 Stratoflight

In the hands of this trio lie scientists' hopes for learning new secrets of the stratosphere in the flight to be made in June from the South Dakota Black Hills. Capt. Albert W. Stevens, center, who will command the 1935 flight; his pilot, Capt. Orvil A. Anderson, left; and their ground officer, R. P. Williams, right, are shown at Akron, O., where they are supervising construction of the 3,700,-000-foot bag that will carry the gondola into space.

## WHAT THE NEWS WAS AROUND DIXON IN YEARS GONE BY

50 YEARS AGO

Fishing has been unusually good in Rock River the past week.

Mrs. George Loveland went to Mt. Morris this afternoon for a several weeks visit with relatives.

Mr. and Mrs. Loveland later intend to spend the coming year abroad and will sail from New York the latter part of May.

Tramps provided themselves with provisions from the home of the Haskins family while they were attending church and N. Pumphrey lost a hive of bees by the tramps greed for honey.

25 YEARS AGO

Grover Wilhelm purchased Nate Haller's barber shop on Galena Ave. Sheriff A. T. Tourtellott took Wm. Koonitz to the Joliet state penitentiary today where he was sentenced on a forgery charge.

The Northwestern announces receipt of 100 new steel coaches which are being placed in service.

10 YEARS AGO

Three Dixon state hospital patients are held at the county jail suspected of the murder of George Spader of Freeport, another patient.

Fred Reiner, I. N. U. lineman, escaped electrocution, but was badly burned and taken to the hospital last evening while working on a line in the rear of the company's office building.

Veterans of France and Germany to Meet

Paris, April 25 —(AP)— French and German veterans who confronted each other in the trenches in the last war will hold private conversations in Paris May 5 in continuation of their efforts to relieve tension between the countries.

The National Union of Combatants voted in its annual convention at Le Touquet today to enter into discussions with veterans of other countries in the cause of peace. It warned, however, that these efforts would be wrecked if Germany continued a policy of "prestige beyond reason."

TRUE FUNCTION OF ART

The true function of art is to stimulate imagination and evoke new vision in the beholder.

Clean Out Kidney Poisons

Wash Out Your 15 Miles of Kidney Tubes

If kidneys don't pass 3 pints a day and get rid of more than 3 pounds of waste matter, the 15 miles of kidney tubes and filters may become clogged with poisonous waste and the danger of acid poisoning is greatly increased. Bladder passages are difficult, which often smart and burn like scalding water and cause discomfort.

This acid condition, brought about by poor kidney functions is a danger signal and may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

Most people watch their bowels which contain only 27 feet of intestines but neglect the kidneys which contain 15 miles of tiny tubes and filters. If these tubes or filters become clogged with poisons, it may knock you out and lay you up for many months. Don't run any risk. Make sure your kidneys empty 3 pints a day.

FORMER DIXON BOY TO GO ON AIR TOMORROW

Dr. Edward Ryan, Successful Chicago Dentist to Give Address

Dr. Edward Ryan of Chicago, formerly of Dixon, and at one time employed by The Telegraph, will be on the air Friday morning over radio station WBBM from 11:35 to 11:45. He is a nephew of Miss Sarah Devlin and Mrs. Margaret Glittenane of this city, is a graduate of the Dixon high school and during his student days was a member of the reportorial staff of The Telegraph.

He is president of the Chicago Dental Society. His early training in a newspaper office has been valuable, as he is now editor of three publications which occupy a high plane in the dental profession, namely, Dental Digest, Oral Hygiene and the Chicago Dental Society Bulletin.

Shortly after his recent election to the presidency of the Chicago Dental Society, Dr. Ryan warned against the dangers of too much sentiment in sick insurance, in a public announcement, reported as follows:

A warning against an "emotional or sentimental" approach to the problems of providing the public with adequate medical and dental care was issued by Dr. Edward J. Ryan, editor of Oral Hygiene, who was elected president of the Chicago Dental Society recently.

"We must not emotionalize or sentimentalize on this matter of economics in the broad field of medicine and dentistry," Dr. Ryan declared. "I believe that it must be approached with the same scientific objectiveness that we use in studying a new disease. We cannot afford to jump on some passing band wagon."

COMPTON NEWS

By Faye Archer  
Compton — The Compton Oilers baseball team took to the field Sunday afternoon in the first preparation for this season. Manager Weber was well pleased with the initial call that greeted him at the Carnahan service station baseball park when the limbering up exercise took place, followed by a meeting at H. M. Chao's store.

As the local club has again entered the Illinois Valley Baseball League the roster of players are limited to fifteen players, which names will be made known at the first league game played early next month. The Oilers efforts this year will be augmented by the services of several regulars from the fast Scarboro team of 1934. With these athletes to fill the weak spots in the local lineup, Compton fans should receive plenty of excitement in the important schedule that is drawn up. Activities of the club will begin next Sunday afternoon, when Manager Weber has announced an exhibition game, free to all loyal fans at the local lot. It is believed the opposing team will be West Brooklyn.

Another important event sponsored by the club is the benefit dance at the Scarboro hall Thursday evening, May 9th. Particulars will follow.

First Vote Scores Published Today. Only Few Candidates Really Working. More Prizes Than Active Workers!

New Nominees Can Enter and Win

Today the first published vote scores for candidates entered in The Telegraph's \$4000 Trade Expansion Campaign appear. Hereafter the standings will be changed daily and will include votes cast up to closing time of the previous day.

Not Fair Indication

Neither the list of candidates nor the recorded vote today is a fair indication of the future of the race. Some candidates have but recently entered and have had but a few days in which to work. Some who entered early made a start and then after the first brief spurt have done nothing. A few have worked as if in earnest and have met with good success as their vote scores indicate. Eventually the election will narrow down to the real workers—the real prize winners. Today, with new candidates, with ability to carry on, entering and others unable to accomplish results, dropping out the standings serve little more than to show who is entered and who have tried.

New Nominee Could Win

Today an entirely new candidate can enter this campaign and with a reasonable amount of effort can in a few days take the lead in either district. And what a new contestant can do any

one now entered can do. The campaign is just starting and all who are entered or who may enter during the present big vote period are on practically even terms. Hundreds of subscriptions are available to those who will go after them. Entire communities are unrepresented and many localities from which not a single subscription has been received.

Prizes Are Extraordinary

It is regrettable there are not more people entered in this campaign. Never before have such valuable cash awards been offered in this section of the state. Many of the prizes are actually going begging for some one to try for them. The present status of this election would not justify this paper giving away a few cheap diamond rings and wrist watches. It is hoped that more people will appreciate the opportunity that is being offered them. Certainly there must be a few other people in this section who could use \$1000 or \$700 in cash or any of the other 24 prizes to be given away in a few short weeks. These people are invited to enter and receive one of the truly extraordinary prizes to be awarded May 31st.

# TOMORROW IS ELECTION DAY AT HIGH SCHOOL

City Officials to be  
Chosen to Preside  
Saturday, May 4

High school candidates for city offices to preside over the city, Saturday, May 4, wound up a fervent campaign yesterday afternoon with a parade through the city streets.

Cars bearing placards of the candidates for mayor, commissioners and police magistrate tooted in procession down First street and up Galena avenue. "Tofte for Mayor," "Snader for Mayor," "Buchner for Commissioner" and other placards were emblazoned across the sides and backs of the automobiles.

Primary elections last Friday gave Snader and Miss Tofte the chance to run against each other for mayor as the surviving two candidates out of four originally in the race. Catherine Buchner, editor of the year book, and connected with the Dixini earlier in the year, as editor, polled a heavy majority for a commission.

Election day is tomorrow.

## WEEKLY SUNDAY SCHOOL LESSON

Text: Psalm 19:7-14; II Timothy 3:14-17.  
The International Uniform Sunday School Lesson for April 28.

By WM. E. GILROY, D. D.  
(Editor of Advance.)

The modern Christian has a Bible that the early Christian did not have. The early Christian had the Old Testament, but the New Testament was in the process of developing.

If Old Testament writers could speak of their sacred writings as the verses from Psalm 19 in our lesson indicate, or as Paul writing to Timothy could commend them, how much more should these words apply to the Holy Bible as we have it today, in the language of the people, so that all may read.

Few things are more remarkable than the way in which, despite all the world's evil and all its problems the Bible continues to be the best seller among books. Though the agency of the great Bible societies, it has found its way into practically every language; and even in the dialects it has been made available.

It is, of course, one thing to have the Bible in our homes, on our library shelves, and on our living room tables, though possibly it is not always in so conspicuous a place but it is quite another thing to have the Bible in our hearts and lives.

The Psalmist loved the Scriptures because they expressed to him the law of God, which was perfect, converting or restoring the soul. He found here the precepts of the Lord

which rejoiced the heart and the commandments which enlightened his eyes.

It is a beautiful picture that he gives of the heart of a man atuned to beauty and honor, whose life is based upon simple principles and who finds in the words of truth something that is more valuable than gold. Such a man is concerned not only to keep his feet in the upward and right way, but he is concerned, also, to purge his life from all error and fault.

It is in keeping the words of his mouth and the meditations of his heart so that they may be acceptable in the eyes of his Maker that he finds the highest ideal.

What Paul wrote to Timothy concerning the Scriptures was, of course, based upon all that he had learned from these Scriptures himself. He must have known by heart these intense and glowing words of the Psalmist.

To him the Scriptures had ceased to be merely formal writings; they were living documents enforced and made incarnate by the One whom he had discovered—Jesus—and in whom he found their fulfillment.

To Timothy, as a young man, he commends these Scriptures as providing the complete equipment of the workman who would be furnished to do everything well. "Study to show thyself a workman approved unto God," wrote Paul to Timothy, "rightly dividing the word of truth."

Every young man who receives that exhortation could not find a better means of fulfilling it than by immersing his life in the Scriptures

and making them the motive power of his life. Of course, one cannot do that without coming above all things, to know the Christ of the Scriptures.

He is the Word of Truth.

## 1177 ENTERED IN QUALIFYING GOLF ROUNDS

New York, Apr. 25.—(AP)—Although the final count will not be announced for several days, indications were today that entries for the 1935 National Open golf championship's sectional qualifying rounds might approach record-breaking proportions.

When the dead line was reached at 6 P. M. last night, it was estimated by the United States golf association more than 1150 entries were on file. The record entry was 1177 in 1930.

Golf officials attributed the increase over last year's 1063 to the addition of Madison, Wis., Greensboro, N. C., and Jacksonville, Fla., as qualifying centers, swelling the total to 25. The medal play tests at 36 holes will be played on May 13.

Allocation of qualifying berths and pairings for the tests will be announced next week.

## FORCE OF RAINFALL

Six million tons of dynamite, exploded every second on the earth's surface through the year, would equal the tremendous power used up and set free annually in rainfall. If all that rain were concentrated on London the city would be reduced to a dust heap—Pearson's Weekly.

## GREAT GOLF By Art Krenz

GHEZZI'S PUTTER MAGICAL  
AS HE BEAT REVOLTA IN  
LOS ANGELES OPEN

©NEA

If it hadn't been for a driving rain that started on the fifteenth hole during the International Four Ball matches at Miami, slowing up the green, Vic Ghezzi and Willie Klein might have been victorious over the eventual winners, Johnny Revolta and Henry Picard.

Ghezzi was displaying the same wizardry that defeated Revolta just a few weeks previous in the Los Angeles Open.

It was Ghezzi's putting that consistently pulled him out of the hole

in the Southern California tournament. At the end of the first nine holes of the final round, Ghezzi trailed Revolta by four strokes. Few gave much heed to the plodding Ghezzi, who was hitting the ball far and putting with brilliant confidence.

Coming to the fifteenth, about 150 yards long, the lanky professional of Dean, N. J., had whittled away at Revolta's lead until he was within striking distance. With a No. 7 iron, he laid the ball on the green 18 feet from the cup. Displaying the putting touch that had gained second place in the California Open, he sank the putt for a birdie two to pick up another stroke in the fast fading Revolta, who, on the tenth hole, looked like a sure winner.

Ghezzi barely missed another birdie on the sixteenth.

He birdied the seventeenth, and finished with a 71 to tie Revolta. In the playoff the next day, Revolta saw too much of Ghezzi's keen stroking and succumbed by the score of 73-75.

"It was Clarence Clark, who straightened out my putting," declares Ghezzi. "He advised me to break my wrist in the backswing instead of taking the club back with an arm movement."

"In putting, I would advise the player to get the line, keep the head still and not think of stroking the ball, but of hitting it. The putter should be worked like a pendulum. The face should be closed in the backswing, yet the blade should be kept at right angles to the hole at all times."

## SUBLETTE NEWS

By Mrs. Orin Bailey

Sublette—Mrs. Arthur Zimmer of Mendota returned to her home from the hospital with her baby Thursday.

The following returned to their homes having recovered from their appendicitis operations: James Ostewig of Chicago, Ellen Stephentich and Jessica Huss of Mendota.

Miss Oleta Koehler of West Brooklyn spent Sunday at the A. J. Lauer home.

Sherriff Ward Miller of Dixon was here Friday evening conducting an investigation.

On Easter morning at the regular worship hour, a goodly number enjoyed a fine service. The young people of the church contributed two musical selections which were appreciated.

On Good Friday afternoon at 2:30 a fine service was held in the Sublette Union church, The Lutheran church on the Chicago road, Perkins Grove Evangelical church and the Sublette Union churches joined in a Lenten service. Dr. E. N. Hemmel of North Central College gave a fine address on the subject, "The Cross and Its Meaning." The young people's mixed quartet from Perkins Grove sang two numbers and Mrs. Roy Brown of Naperville sang a solo. These numbers were greatly appreciated. The church was very tastefully decorated for the occasion.

SOME SPECIES OF GIRAFFES HAVE THREE HORNS, WHILE OTHERS HAVE ONLY TWO!

THE FEATHER CLOAK WORN BY KING KAMEHAMEHA, OF HAWAII, IS WORTH ONE MILLION DOLLARS.

IN SPITZBERGEN,

A MINE SHAFT WAS SUNK MORE THAN A MILE INTO THE EARTH, AND THE GROUND WAS FOUND TO BE FROZEN ALL THE WAY.

BISHOP MUSEUM, HONOLULU.

The feather capes worn by Hawaiian royalty of past centuries were made from rare birds, most of which were sacred to the kings and chiefs, and many of which are now extinct. Common people were not allowed to wear the feathers of these royal birds.

Earl Robinson now has a wheel chair and gets around and enjoys himself. Stricken in infancy with infantile paralysis which left the lower limbs hopelessly paralyzed and now grown to young manhood, Earl has never been able to engage in the sports of other boys, but could only watch them from the window. Rena Halsey believed that a wheel chair would enable him to get more pleasure out of life, and she started out to find one for him. She was able to purchase a chair from Dr. Ziegler of Amboy at a very reasonable figure including a donation from the physicians. She then raised the amount by popular subscription and following is the list of those who contributed: Rena Halsey, E. A. Pomeroy, Eri Conibear, Mrs. Ned Bedient, S. E. Dishong, Mrs. H. Lippincott, Mrs. Mary Riley, Orville Dewey, Mrs. F. Rank, Charles Conibear, Alice Paul, William Clink, Russell Hill, L. Nicholson, Mrs. H. King, J. A. Tait, Mrs. Mary Tait, Edwin Daw, John Wood, A. H. Hill, F. L. Jahn, George Dunseth, George Fraedhoff, Carl Maves, B. F. Chesley, E. B. Carlson, George King, LeRoy Chaon, C. A. Ullrich, Roy Ullrich, Frank Steebins, Earl McNinch, Junior high school class, H. Blodgett, H. B. Gilboe, John Vivian, Mrs. Freda Mortenson, Rose Mortenson, W. S. Frost, Lyle Frost of Lee Center; Robert Nowe, William Hillison, Frank Brady, L. S. Griffith, Amboy; Charles Mackin, West Brooklyn and Charles Ackerson of Rochelle.

A music festival including orchestra selections will be held in the church Friday evening starting at 8 o'clock. A small admission will be charged.

Girls from ten years up who are interested in 4-H club work will please confer with Eva Cox or Rose Mortenson. There are several interesting projects also for older girls and Mrs. Raymond Degner will be glad to arrange classes for them.

The regular spring thank-offering service of the Pilgrim Study club will be held in the church next Sunday morning, April 28 at 10:30. The subject will be "Japan" and the program is in charge of the women of the club. There will be special music.

Misses Ruby Mattress and Vera Freadhoff were dinner guests Tuesday evening of Mr. and Mrs. Thos. McBride.

Mr. and Mrs. Richard Phalen and little son are occupying Mrs. Linda Brasel's new home on Second St. They were tendered a house warming recently by friends from several towns.

Mrs. Evan David of LaMoille, formerly of this place, will give her talk on Wales at the Mendota Woman's club at an early date.

Mrs. Harry Eaton will be hostess to the Lee Center unit of the Home Bureau next Friday, Apr. 26 at 1:30 sharp. Mrs. Syverud will present the lesson, "Wardrobe Selection," and lines that slenderize. Answers to roll call will be with an April fool joke.

Mrs. Masters and daughter Mildred of Ottawa were week end guests at the Thomas Bride home.

Mr. and Mrs. Gilbert Finch of Dixon, formerly of Amboy, visited friends and relatives here Sunday afternoon.

In the first skirmish of the season, the local baseball team defeated a Dixon team 8 to 7 on the diamond here Sunday afternoon.

## Glenn May be Candidate for Governor

Chicago, April 25.—(AP)—Otis F. Glenn, Chicago attorney, and former United States Senator from Illinois, said he may become a candidate for governor on the Republican ticket in 1936.

"Many friends from all parts of the state have been urging me to run for governor in 1936," stated Glenn, "but I have not yet decided definitely to seek the office, or for that matter, any other office."

"It is a little too early to determine whether or not to make the run."

Enfield Doctor and Wife Get Last Wish

Enfield, Ill., April 25.—(AP)—What had been the basis of wishes and prayers for years, occurred in the home of Dr. and Mrs. J. V. Tucker here Wednesday.

The aged couple, inseparable for years, had long expressed to friends a desire they die at the same time.

Yesterday at 4:15 a.m. Mrs. Tucker died following a lengthy illness. Her husband, at her bedside when she was pronounced dead, went to another room and slumped on a bed. Two hours later he too was dead.

Enfield, Ill., April 25.—(AP)—What had been the basis of wishes and prayers for years, occurred in the home of Dr. and Mrs. J. V. Tucker here Wednesday.

The aged couple, inseparable for years, had long expressed to friends a desire they die at the same time.

Yesterday at 4:15 a.m. Mrs. Tucker died following a lengthy illness. Her husband, at her bedside when she was pronounced dead, went to another room and slumped on a bed. Two hours later he too was dead.

## The DARK BLOND

by CARLETON KENDRAKE ©1935 NEA SERVICE, INC.

BEGIN HERE TODAY  
 MILLICENT GRAVES, secretary to GEORGE DRUMGOLD, finds her employer in a strange, dark, and to her, a stranger, offers to help her. He sends her to a beauty shop where she is transformed into a beauty, then takes her home, introducing her as his secretary. She meets HARRY, a man, NORMAN; his stepson, ROBERT; and his wife, MRS. HARRY. HARRY, HARRY's partner, and VERA, HARRY's maid.

In HARRY's home Millicent sees the mysterious woman in black, the woman whom she believes has some connection with Dringold's death.

The chauffeur is killed. Later HARRY is kidnapped. Millicent and Norman learn the car driven by the woman in black belongs to PHYLIS FAULCONER. They go to her apartment and while there someone tries to enter. Norman follows to find out who it is. Millicent discovers the suitcase containing HARRY's business accounts. She takes it and goes to the hotel where she stopped before. The clerk telephones that a man is asking for her.

Now go on with the story CHAPTER XXXVII  
 MILLICENT turned away from the telephone and faced the door, feeling sick with dread. No one could possibly know of that room in the hotel unless it was someone who had followed her. Had been playing with her as a cat plays with a mouse.

The pounding on the door was repeated, this time more insistently. Millicent made up her mind that, come what might, she was not going to open that door.

She stood perfectly still, listening, waiting. Once more the knuckles pounded on the door, and a man's voice said, "Please let me in."

Millicent's heart gave a wild surge. She thought she recognized the man's voice. She literally ran across the room to the door and said, "Who is it, please?"

Norman HARRY's voice said, "Thank God you're safe."

Her quivering fingers twisted the key in the lock.

Norman HARRY pushed the door back, entered and clasped her in his arms—all as it seemed to Millicent in one swift motion.

"My precious," he said. "Oh, my dear one!"

Without volition on her part, her face tilted back. Millicent knew that her soul was in her eyes. Her lips were half-parted as she gasped, "Norman, I'm so glad I'm so..."

His lips pressed close to hers, stopped her words. For a long, blissful moment she clung to him, her heart seeming to throb in unison with his heart. Then she pushed him away, half-laughing, half-sobbing.

Norman looked impatiently over his shoulder, kicked the door shut with a bang of his heel, and once more his hungry lips sought hers.

This time, however, Millicent had herself under control. Norman's arrival when she had believed all was lost had been such a relief that she had surrendered, blindly to the sudden impulse that had welled up within her breast.

"My," she said, "

## They 'Vacuum Clean' Dust-Choked Kansas Lawns

The ill wind that smothered Wakenoy, Kan., lawns under a thick blanket of dust created a new and flourishing industry. With this weird-looking contraption, a giant suction cleaner built on an auto chassis, the "inventors" are making the rounds of lawns, relieving them of their dust-and-sand coats. Through the hose seen in the background, dust is sucked from the grass and dumped in a pile on the roadway.

## POET'S CORNER

SPRING!

(By Edith Andrew Burchell.)

It must be Spring—  
For I just heard a robin sing,  
And far beyond the tree tops high  
I hear wild geese go honking by.

Along a wayside timber road  
Are Gypsy bands—with heavy load  
Who stop to rest—at night-time  
steals—  
Their dogs—and squeaky wagon  
wheels.

It must be Spring—  
For on the hills and sunny slopes  
Are violets and heliotropes—  
Where April showers and sun combine  
To wake each blossom—at Easter-time.

I know it's Spring—  
For once again—I hear you sing  
Beyond the sunsets golden ray  
And Spring is in my soul—today.

## THE PLANET PLUTO

The planet Pluto was discovered by C. W. Tombaugh of the Lowell observatory on March 13, 1930. Its body is about 10,000 miles in diameter, its mass about half that of the earth. It is about 40 times as distant from the sun as the earth is. It travels through space at the rate of two or three miles per second.
